## Instructors

### **Jeff Mosteller, CHT**

Director of Training & Certification, Safety Director

Jeff Mosteller received a degree in Underwater Technology in September of 1982. Since then he has worked in every aspect of hyperbaric medicine, starting at UCSD Medical Center where he rose to become Program Director by age 28. Jeff took the very first CHT exam offered in 1991 by the National Board of Diving and Hyperbaric Medical Technologists, passing with distinction and becoming just the 33rd CHT ever.

Over his 36 year career, Jeff has operated and managed hyperbaric and wound care centers on every level including Level 1 Trauma Units, such as UCSD and Detroit Receiving Hospital with Complex Multiplace Chambers and intensive care capabilities, to small hospital monoplace centers, and is familiar with every type and manufacturer of hyperbaric chambers. He has published 16 technical papers on hyperbaric operations and safety.

In just over 36 years, he has performed or supervised tens of thousands of hyperbaric procedures without a single patient injury more than ear squeeze, and has performed hundreds of treatments for decompression sickness.

### **Blake Hague, EMT-B**

Fire Instructor

Blake Hague has worked at the Northeast Ingham Emergency Service Authority for 11 as a firefighter and an EMT, and he has been a Michigan-certified instructor for a year. He has worked at Oxford Recovery Center as a hyperbaric technician for 2.5 years.

Blake has a passion for meeting people and helping people from all walks of life. As a hyperbaric technician, he loves to see how Hyperbaric Oxygen Therapy helps so many people.
